	ICRS-M-6	25X
	The Deputy Chairman requested the NRO to develop the two new cases and provide a briefing on the capabilities of the three cases so that a decision could be made as to which case has the better potential for satisfying our immediate and near-future intelligence needs as assessed at this time.	
	PRELIMINARY OAK REPORTING	
25X1A 25X1D	the Preliminary OAKS. He stated that publishing Preliminary OAKS did not slow down or impact on the OAK processing at all. He did indicate that NPIC was in the process of reviewing the Preliminary OAKS to insure that they are short and concise. He said that NPIC planned in the future to have	25X1, 25X1,
	MAJOR ALLMAN's PAPER ON FIRST PHASE REPORTING	
	6. Discussion of Maj. Allman's paper on first phase reporting was begun with a statement from the Deputy Chairman that he thought this was a very good paper. He stated that he invisioned the ICRS minimum requirement as consisting of the Photo Reference Line with the possible inclusion for more detailed readout of perishable or high interest requirements such as comprehensive readout of the Pueblo, if located. The CIA Member commended the Air Force representative on his paper and noted that he	3
